### **TEACHING RECORD**

#### **Courses and lectures**

##### Courses

- 1996-1999 **Writing Manuscripts for Peer-Reviewed Publication** (faculty development course)  
I designed and delivered the course. Enrollment ranged from 4 to 20 professors of any rank from all schools. Administered through the UCHSC Office of Education.
- 1996-1999 **Facilitation** (faculty development course)  
I designed and delivered the course. Enrollment was typically 5 to 8 faculty members of any rank from all schools. The curriculum focused on developing and practicing skills for effective meetings, team development, and committee processes. Administered through the UCHSC Office of Education.
- 1998 **Pharmacy Communications** (PHPR 3070, 3 semester units)  
I revised and delivered this required master's program course to 104 students in the CU School of Pharmacy.
- 2002-10 **Introductory Epidemiology** (EPID (formerly PRMD) 6630, 3 semester units)  
As a voluntary small-group leader, I facilitated six exercise sessions per semester with ~8-15 students who presented their answers to homework exercises and collaborated to identify the origins of mistakes. I served approximately 8 semesters and was chosen to pilot-test telephone-based sessions, based on student feedback to the course director.
- 2003-11 **Survey Data Analysis** (EPID (formerly PRMD) 7915, 1 semester unit)  
I designed and delivered this five-week elective course for epidemiology doctoral students, with others by approval. The curriculum combines didactic and applied learning activities. Enrollment was 4-6 students each term.

- 2009-14 **Social and Behavioral Factors in Health** (CBHS 6610, 3 semester units)  
I directed this MPH core course and redesigned it to increase student engagement and provide community immersion experiences. The new format relied heavily on interactive classroom dialogue, and the course was revised every semester based on student feedback and self-observation of what did and didn't engage students. Enrollment ranged from 14 to 50, with an average of 25 students.
- 2017-18 **Theoretical Perspectives in Health and Behavioral Sciences** (HBSc 7021, 3 semester units)  
Doctoral course ( $n=4$  per semester) in the Health and Behavioral Sciences program on the Downtown campus.

#### Lectures and seminars

- 1996-2016 **Cancer Prevention and Control** (EPID (formerly PRMD) 6622)  
Designed and delivered lecture each year on social, behavioral and political aspects of tobacco prevention and control.

Designed and delivered lecture, Defining and analyzing social health issues: the case of tobacco.
- 1999 **Scientific Basis of Health Promotion Intervention Strategies** (IDPT 6629).  
Designed and delivered lecture on environmental/ecological strategies and tobacco control.
- 1999 **Nursing Doctorate Residency Seminar** (NURS 8017)  
Designed and delivered lecture, Writing for Publication.
- 2001 **CU Child Health Associate/ Physician Assistant students seminar series**  
Designed and delivered two-part lecture series, Writing for Research.
- 2002-08 **Cardiovascular Epidemiology** (PRMD 6638)  
Designed and delivered lecture, Secondhand Smoke and Cardiovascular Disease.
- 2003 **Cancers of the Respiratory System** (Memorial Lecture Series, USC-Pueblo)  
Designed and delivered lecture, A Brief Political History of Lung Cancer.
- 2008 **Public Health Administration** (HSMP 6606)  
Designed and delivered lecture, Evaluation for public health decision-makers.
- 2008 **Introduction to Health Services Research** (HSMP 6617)  
Designed and delivered lecture, Translating health research into policy.
- 2008 **Introduction to Epidemiology** (HBSC 4001/5001)  
Designed and delivered lecture, Tobacco Epidemiology and the Concept of Causality.
- 2010-15 **Introduction to Environmental Health** (EHOH 6614)  
Designed and narrated recorded lecture, Tobacco Control: Where are we (headed)?
- 2012-15 **Chronic Disease Epidemiology** (EPID 6636)  
Designed and delivered lecture, Tobacco and Its Control.
- 2014 **Maternal and Child Health Epidemiology Independent Study** (EPID 6840)  
Designed and delivered lecture, Introduction to Complex-Sample Survey Data.
- 2014 **Research Methods with Secondary Data** (EPID 7605)  
Designed and delivered lecture, Introduction to Complex-Sample Survey Data.
- 2015 **DrPH Seminar** (PUBH 6842)  
Co-presented seminar, Writing for Publication.
- 2017 **Survey Design and Sampling** (CBHS 6624)  
Delivered seminar in Community Health Assessment course.

### **RESEARCH**

#### **Active Awards** (reverse chronological order)

- 2015-21 **Evaluation of Colorado's Tobacco Grant-Funded Program Portfolio**  
CDPHE Interagency Contract (three-year non-competing renewal started 7/1/18, 19FHFLA110081, \$1M first year). This multi-component project evaluates micro- and macro-level impacts of the State's \$20M/year portfolio of community-based and state-level programs to prevent and reduce tobacco use. (**Levinson**, PI)
- 2015-20 **Healthy Kids Colorado Survey** (Brooks-Russell, PI)  
CDPHE Interagency Contract (two-year non-competing renewal started 7/1/18, 19FHFLA108254, \$1.4M total cost). Continuation of biennial, multi-module student health survey to meet data needs among state agencies and public and private stakeholders. (**Levinson**, Senior Investigator)
- 2017-20 **Enforcement of Family Smoking Prevention and Tobacco Control Act**  
CDPHE (18FLA105610, \$15,000 per year total costs). This project, continuously renewed since 2010, supports provision of sampling services and interagency enforcement coordination for undercover and announced compliance check activities under federal FDA authority to regulate tobacco sales and advertising (**Levinson**, Youth Access Consultant).

**Completed** (reverse chronological order)

- 2017-19 **All-patient Cancer Center Expansion of Supportive Services (ACCESS) for Tobacco Cessation Treatment**  
(Schulick, core grant PI)  
NCI (3P30CA046934-29S2; \$250,000 annual total costs). This project under the NCI Cancer Moonshot initiative will design, implement, and evaluate systematic assessment and appropriate cessation treatment for UCCC cancer patients who use tobacco. (Levinson, Project Leader.)
- 2014-18 **Marijuana Media Campaign Evaluation** (Bull, PI)  
CDPHE Interagency Contract (17FLA89911, \$499,936 first year total costs). This project is evaluating knowledge and behavioral outcomes from a mass media and targeted media education campaign about laws and health risks related to legalized recreational marijuana. (Levinson, Co-Investigator).
- 2017-18 **Pre-Tax Evaluation of Boulder Tax on Sugar-Sweetened Beverages**  
(Cooper, Project Director)  
Colorado Health Foundation (Grant #8655; \$72,248)  
This project is collecting, analyzing and reporting pre- and post-tax data (prices and consumer behaviors) around purchase and consumption of sugar-sweetened beverages (SSBs), comparing a community with (City of Boulder) vs. without (Fort Morgan) an SSB tax taking effect July 1, 2017. (Levinson, Senior Scientist)
- 2015-16 **The Attitudes and Behaviors Survey (TABS) on Health** (James, PI)  
CDPHE Interagency Contract (16FHLA79815, \$800,000 total costs). This contract supports instrument design and data collection for a periodic cross-sectional population study conducted regularly since 2001. (Levinson, Senior Investigator)
- 2014-15 **Community feasibility study of tobacco behaviors, chronic life stressors, and intervention reach in a low SES Aurora community** (Garrett & Valverde, co-PIs)  
CCTSI Community Engagement Pilot Grant (JP-195; \$39,123, 12 months). This project seeks to demonstrate that the community partner's settings in North Aurora have sufficient reach and target-population readiness to support a full-scale randomized controlled trial of smoking cessation treatment guide stations in non-clinical settings (Levinson, academic mentor).
- 2013-15 **Unified State Youth Health Survey**  
CDPHE Interagency Contract (13FLA53045-14FLA56217; \$409,729 total costs, 18 months; non-competing renewal: 15FLA71822; \$770,000 first-year total cost). Under this innovative collaboration among three Colorado executive departments, the University of Colorado Denver will initiate a biennial, multi-module health survey ( $n \sim 40,000$  per wave) to meet data needs among state agencies and public and private stakeholders. The project will also develop a coordinating center for accommodating other school survey needs while reducing survey burdens on schools. (Levinson, PI).
- 2012-15 **In-hospital treatment for smoking cessation: bringing best practices to Colorado**  
CDPHE Interagency Contract (13FLA48549; \$728,133 total costs). University of Colorado Health will adopt, implement and evaluate the Ottawa Model (OM) for Smoking Cessation in each of its three hospitals and affiliated facilities (Levinson, project designer/proposal writer and Scientific Director).
- 2011-14 **University of Colorado Hospital Smoking Cessation Service**  
SOM-UCH (\$100,000 per year direct costs). This project will create and pilot a smoking cessation program for selected cancer, cardiovascular and pulmonary inpatients, and evaluate feasibility, cost, reimbursement, and system changes needed for UCH-wide implementation (Levinson, Director; mentoring author, manuscript in preparation).
- 2011-12 **Colorado Local Policy Initiative Evaluation Study**  
CDPHE (FLA12-36209; \$25,000 total costs). This project supported DrPH student Erin Seedorf to evaluate local policy initiatives for licensing tobacco sales (Levinson, PI, pre-dissertation project advisor).

- 2009-12 **Smoking cessation navigation for low income parents: a pilot study**  
NCI (R21CA141569; \$396,152 total direct costs, with no-cost extension). This study assessed feasibility and effect size of providing low-income parents with assistance to access and use smoking cessation treatment (**Levinson, PI**).
- 2011-12 **Barriers to cessation treatment use among Mexican American/ Chicano smokers**  
(Albright & Piñeda, co-PIs)  
CCTSI (\$30,000 total costs). This project used qualitative interview methods to explore reasons for nonuse of evidence-based smoking cessation strategies, and to conceive novel approaches for overcoming the barriers. (**Levinson, mentor**).
- 2010-11 **Colorado QuitLine Outcome Evaluation Study**  
CDPHE (FLA11-17088; \$142,430 total costs). This project evaluated cessation outcomes among Colorado QuitLine participants, with sub-studies of pregnant/post-partum women and the Medicaid population (**Levinson, PI**).
- 2009-12 **Cost-effectiveness study of nicotine patches distributed through a quitline**  
Pfizer Scholars Grant in public health. This randomized controlled trial compares two nicotine patch distribution protocols to identify a more cost-effective protocol for smoking cessation. Burns, PI (**Levinson, mentor and senior author**).
- 2009-10 **Community Navigators / Promotores de Salud for Disease Prevention & Treatment**  
CCTSI (\$10,000 total costs). This small, partnership development award supported formation of a community-academic collaboration around community health promoter research (**Levinson, PI**).
- 2007-10 **Ohio Quits Evaluation**  
Ohio Tobacco Prevention Foundation (\$350,000 total first year costs; ended 6/30/08 due to state budget cuts). This project designed evaluation of a statewide, multi-mode system of tobacco cessation services. Only one of three contract years was implemented (**Levinson, PI**).
- 2005-15 **Community Epidemiology & Program Evaluation Group (CEPEG)**  
CDPHE Interagency Contracts (multiple fiscal instruments; \$13.3 million, 9/1/05-10/31/15). These continuously renewed and restated interagency contracts extended a project originally awarded as a competitive R01-equivalent grant from the University of Colorado Tobacco Research Program (completed; see below). The scope of work was renewed or extended 11 times, and supported design and implementation of population surveillance studies and evaluations of tobacco control and chronic disease prevention programs (**Levinson, PI**).
- 2005-10 **Northeast Denver Black Church Initiative on Cancer**  
NCMHD (R24MD001782). This project is creating a community-based participatory research infrastructure and conducting planning and pilot studies to address community-selected priorities in cancer prevention and screening. Marcus, PI (**Levinson, Co-investigator**).
- 2003-07 **RE-AIM Evaluation of Tailored Smoking Harm Reduction**  
NCI R01CA90974. This randomized controlled trial among outpatient surgical patients evaluated an intervention to reduce cigarette consumption levels through a combination of tailored counseling and tailored print messages. Glasgow, PI. (**Levinson, Co-investigator/biostatistician**).
- 2003-06 **Colorado Latino Smoking Cessation Intervention Study**  
NCI supplement (U01CA86106; \$50,000 direct costs, R03 equivalent). This pilot project collected, analyzed, and reported qualitative data on sociocultural contributors to underuse of nicotine replacement therapy and less prevalent smoking cessation among Colorado Latino adults compared with white non-Latino adults. (**Levinson, pilot investigator**).
- 2005 **Evaluation of STEPP Impact, 2002-2004**  
CDPHE (\$25,000 total costs). This study evaluated the impact of Colorado's comprehensive tobacco control program during the years of substantial funding from the Master Settlement Agreement between tobacco manufacturers and 46 state attorneys general (**Levinson, PI**).

- 2005           **Appalachian Smokers and Ohio Quitline Use**  
Ohio Tobacco Prevention and Control Foundation (\$100,000 total subcontract; prime contractor: National Jewish Medical & Research Center.) This survey and focus group study generated information to improve Ohio Quitline reach among Appalachian smokers. (Levinson, PI).
- 2004-05       **Crossing the Spit Divide**  
University of Colorado Tobacco Research Program, 4I-004 (\$24,215). This secondary analysis of tobacco survey data contrasted users and nonusers of smokeless tobacco (ST), comparing regions that differ substantially in ST use-prevalence, in order to inform development of intervention strategies for high-prevalence regions. (Levinson, PI).
- 2003-04       **Colorado Tobacco Disparities**  
CDPHE (PPG04000016; \$20,000 total costs). This secondary data analysis reported on tobacco-related burdens by socioeconomic and ethnic status. (Levinson, PI).
- 2002-03       **Local Profiles from Tobacco Attitudes and Behaviors Survey (TABS)**  
CDPHE (PPG03000040; \$15,000 total costs; ended 6/30/04). This project mapped selected survey results to inform local public health program staff for planning tobacco-use prevention and reduction programming. (Levinson, PI).
- 2001-02       **Colorado Tobacco Attitudinal and Behavioral Surveys (TABS)**  
University of Colorado Tobacco Research Program (CU-DT17995-R; \$1.5 million direct costs). This peer-reviewed, competitively awarded project set baselines and explored Colorado adult and youth attitudes and behaviors regarding tobacco, based on collection and analysis of large ( $n > 10,000$ ) population sample survey data. (Levinson, PI).
- 1997-99       **Tobacco Use among Community Health Center Patients**  
NIH/Agency for Health Care Policy and Research. (\$25,000 dissertation research award). This study measured smoking prevalence and explored underlying factors among adult health center patients younger than 40 in U.S. Public Health Service Region VIII. (Levinson, PI)
- 1991-99       **Colorado American Stop Smoking Intervention Study (ASSIST)** (Young, Director)  
NCI (CN-95165-38; \$1.0 million per year, ended 9/29/99). This competitively awarded project evaluated population-level effectiveness of community- and coalition-based strategies to prevent and reduce tobacco use. (Levinson, Colorado program designer, Tobacco Policy Specialist.)
