RESEARCH FUNDING - ACTIVE

Office of Suicide Prevention, Veterans Health Administration (PI: Dobscha) \$64,445
Evaluation of Impacts of Distributing Lethal Means Safety Resources to VA Specialty Clinics and Community Settings Initiative 7/2024-9/2025

The objective of this work is to evaluate the impact of distributing lethal means safety resources to specialty clinics in VA.

Department of Defense / CDMRP / TBIPHRP (PI: Stanley) \$2,993,024
TP230404 10/1/24-9/30/28

Firearm Safety in PTSD (FaSP): A Randomized Controlled Trial of Lethal Means Safety Counseling Among Service Members and Civilians with PTSD

This primary objective is to evaluate the efficacy of Firearm Safety in PTSD (FaSP), a brief lethal means safety counseling intervention that therapeutically targets PTSD-related exaggerated perceptions of threat to promote safe firearm storage practices, for firearm-owning service members and civilians with PTSD.

United Services Automobile Association (USAA) (PI: DeBeer) \$384,767
Training Community Healthcare Providers in Lethal Means Safety Counseling to Reduce Veteran Suicide Deaths 10/2023 – 09/2024

The aim of this grant is to implement lethal means safety policies and procedures within 13 community healthcare organizations serving veterans in Colorado.

VA OMHSP (PI: Simonetti, Holliday) \$87,799
VHA service use proximal to firearm suicide among US veterans 10/1/23-9/30/24

The aim of this study is to identify sites and frequency of care among Veterans who died by firearm suicide from 2015-2021 and identify clinical populations phenotypes

VA OMHSP (PI: Hoffmire) \$643,320
Suicide Risk Identification and Prevention in Reproductive Healthcare Settings 10/1/23-9/30/25

The aim of this study is to describe VA Risk ID screening completion and missed opportunity rates among women veterans, and describe the perspectives and current practices of women’s health clinicians regarding suicide risk screening, assessment, and intervention efforts.

VA Health Services Research & Development (PI: Khazanov) \$159,862
Incentivizing Lethal Means Safety Among Veterans at Risk for Suicide 7/1/2023-12/30/2024

This study seeks to test the feasibility, acceptability, and preliminary efficacy of using incentives-based interventions to motivate changes in firearm storage practices among veterans with elevated suicide risk

Department of Defense (PI: Betz) \$1,907,106
MTEC-21-05-CrossCutting-032 07/01/2023-03/30/2025

Protective Environments: Military Community Engagement to Prevent Firearm-Related Violence

The aim of this expansion project is to develop a partner network of civilian firearm ranges/retailers near

Buckley Space Force Base, and up to five additional military installations in the United States, that will provide education, outreach, and firearm secure storage options to the local military community

University of Pennsylvania INSPIRE Center (PI: Hoskins) \$59,367
Understanding reasons for recent firearm purchasing among Black Americans to inform lethal means safety counseling 10/11/22-10/10/23
The aim of this pilot study is to explore perspectives on gun purchasing and ownership among Black Americans who recently acquired a firearm

Colorado Department of Public Health and Environment (PI: Betz) \$848,000
Colorado Office of Gun Violence Prevention Resource Bank Implementation and State-Academic Partnership Development (Agreement # 2023*2929) 12/1/22-6/30/23
The goal of this project is to support the launch and maintenance of a resource bank as a repository for data, research, and statistical information regarding firearm injuries and deaths, and their prevention, in Colorado

VA OMHSP (PI: Dudley) \$1,017,789
Developing artificial intelligence methods to identify firearm and substance use suicide risk factors in the VHA EMR 1/1/2022-9/30/2024
The aim of this study is to use natural language processing and machine learning methods to identify important suicide risk factors located in free-text EMR entries

COR 19-490 (PI: Debeer) \$49,000
VHA Suicide Prevention Impact Network (SPRINT) Pilot Award Involving Concerned Significant Others in Firearms Safety: Development and Pilot Test of a New Intervention to Prevent Suicide in Firearm Owners 10/1/20-9/30/21
The aim of this work is to adapt firearm safety intervention by incorporating support from significant others

1IK2HX002861-01A2 VHA Career Development Award-2 (PI: Simonetti) \$1,049,426
VA Health Services Research & Development Development & Testing of a Veteran-Centered Lethal Means Safety Suicide Prevention Intervention 7/1/21-6/30-25
This study aims to develop and test a lethal means safety intervention in VHA ED settings

IK1 CX002370-01A1 VHA Career Development Award-1. (PI: Houtsma) \$176,190
VA Research & Development Acceptability and Feasibility of a Peer-to-Peer Firearm-Specific Means Safety Intervention 01/01/22-12/31/24
This study aims to determine the feasibility and acceptability of a veteran-to-veteran firearm safety suicide prevention intervention

RESEARCH FUNDING - COMPLETED

Pilot Grant (PI: Aunon) \$25,026.50
VHA Suicide Prevention Impact Network (SPRINT) Pilot Award Development of a brief, motivational interviewing intervention manual for lethal means safety counseling for implementation within Primary Care and Primary Care Mental Health Integration 02/01/21-01/31/22
This study will use a mixed-methods approach to engage patient, clinical, and operational stakeholders to develop a motivational interviewing manual to facilitate the delivery of lethal means safety counseling in VA PCMH settings

VHA VISN 4 MIRECC (PI: Khazanov) \$25,000

Contingency Management for Means Safety 10/1/20-9/30/21
This study will assess potential utility for monetary incentives in promoting engagement with a variety of lethal means safety counseling resources among firearm owners

University of California Firearm Violence Research Center (PI: Holland) \$10,000
Development, implementation, and evaluation of a firearm safety counseling module for medical students 08/01/2020-12/31/2021
