WE CAN WORK TIP SHEET

PURPOSE

Starting in June of 2024, UCHeath Occupational Medicine will partner with the University of Colorado Oncology to meet the return to work needs of patients with cancer diagnoses. The return-to-work letter will enable collaborative communication with employers, conveying necessary details of patient visits, any associated restrictions, and follow-up appointments.

CU ONCOLOGY HOW TO PLACE REFERRAL TO OCCUPATIONAL MEDICINE

Step 1 Open order entry

Step 7 Complete and sign order

OCCUPATIONAL MEDICINE HOW TO ADD SMARTPHRASES

Step 1 Under SmartPhrase manager make sure User is selected at the top. Search for Sanders, Oscar

			1							
Lev	el:	User	Profile	Department	Location	Facility	1	SANDERS, OSCAR 🔎	My SmartPhrases	SANDERS, OSCAR L
								· · · · · · · · · · · · · · · · · · ·		

Step 2 Locate and select both SmartPhrase .letterwecanwork and .wecanwork

Step 3 Click Add to My SmartPhrases

OCCUPATIONAL MEDICINE ENCOUNTER DOCUMENTATION

Step 1 Use SmartPhrase by typing .wecanwork in the note section of Epic.

Step 2 Complete note according to standard practice

Work restrictions should be general enough to apply to anyone in the job. Purposefully vague so as not to box in the employer. Physical perimeters: they work with their employer to find a job that fits within the restrictions. This allows employees the ability to work to the limit of their restrictions. If they have a physical job, many patients must slowly ramp back up to return to work.

OCCUPATIONAL MEDICINE HOW TO CREATE LETTER

Step 1 Select Communications tab in the encounter

Step 2 Select Blank Letter template

Step 3 Select greeting To Whom it May Concern

Step 4 Replace wildcard with SmartPhrase .letterwecanwork

Patient TEST TEST						
Dear Dr. Toegel,						
WE CAN WORK RETURN TO WO	RK LETTER					
CASE INFORMATION						
Name:	TEST TEST					
Date of OM visit:	06/20/2024					
RECOMMENDATIONS Other Recommend limiting continuous standing to 2 hours per case. Employee should be allowed the opportunity to take 10-15 minute breaks as needed. Recommend no patient contact in the outpatient clinical setting. May perform administrative work remotely.						
Recommendations are not required but are highly encouraged to promote optimal return to work. They are not job-specific and apply to both work and home. Unless specifically addressed there are no recommended limitations.						
Recommendations are occupational medicine physical abilities, and t	ased on medical expertise from hysician, taking into account the atment protocol to assist in cont	a board-certified patient's job duties, tinuing work.				
Sincerely,						
Oscar Levern Sanders MD
