### DATA SETS USED IN CAIANDTR PILOT STUDIES (2017-2024)

| PILOT INVESTIGATOR  | DATA SOURCE(S)   | POPULATION(S)   | EXAMPLE MEASURES   | PUBLICATION/REFERENCE |
|---------------------|--|---|--|-----------------------|
| <b>Kaipeng Wang</b> | <a href="#">Behavioral Risk Factor Surveillance System (BRFSS)</a> | American Indian adults with diabetes  | Mental health; self-management behaviors (blood sugar testing, foot exams, diabetes management courses, self-monitoring of blood glucose, physical activity, routine health care visits) | In progress           |
| <b>Li Chao</b>      | <a href="#">Strong Heart Study</a>                                 | American Indian adults with diabetes who were enrolled in the Strong Heart Study from Phases 1 to 6 (1988-2018) | HbA1c, fasting glucose, 2-h glucose, HOMA-IR and serum lipids, including LDL, HDL and TG   | In progress           |

| PILOT INVESTIGATOR    | DATA SOURCE(S)   | POPULATION(S)   | EXAMPLE MEASURES   | PUBLICATION/REFERENCE   |
|-----------------------|--|---|--|---|
| Ginny Lane            | <a href="#">SEARCH for Diabetes in Youth Study</a>                                       | Identified youth aged 0-19 years with a physician diagnosis of type 1 or type 2 diabetes at five centers in the USA between 2002 and 2018 | Risk factors for diabetic ketoacidosis   | In progress   |
| Susie Lopez           | <a href="#">Chickasaw Healthy Eating Environments in Retail Stores (CHEERS)</a>          | American Indian adults who participated in the CHEERS study   | Food insecurity, depression, alcohol use, tobacco use  | In progress   |
| Erin Morgan           | <a href="#">Strong Men, Strong Community (SMSC)</a>                                      | American Indian men who participated in the SMSC study  | Perceptions of masculinity, diabetes prevention strategies (diet, exercise, healthcare engagement) | In progress   |
| Maja Pederson         | Semi-structured qualitative interviews   | Rural American Indian adults (50-82 years)  | Physical activity behaviors  | In progress   |
| Brandon Varilek       | <a href="#">United States Renal Data System</a>  | AI/ANS and NHWs with end-stage renal disease (ESRD) related to diabetes   | ESRD diagnosis, kidney transplant, hospice referrals   | In progress   |
| Liz Anderson          | IHS Improving Health Care Delivery Data Project (“IHS Data Project”)                     | AI/AN and White Medicare Beneficiaries aged ≥65 years in 2019 and who died in 2019  | Health service use, demographics, health coverage, health status, SDOHs                            | In progress   |
| Luciana (Lucy) Hebert | <a href="#">Pregnancy Risk Assessment Monitoring System (PRAMS)</a> (Phase 8; 2016-2018) | Women with GDM from different racial/ethnic groups in five states (Alaska, Oklahoma, New Mexico, South Dakota, and Washington)            | GDM, breastfeeding initiation, sociodemographics   | Hebert, L. E., Nikolaus, C. J., Zamora-Kapoor, A., & Sinclair, K. A. (2022). Gestational diabetes and breastfeeding among women of different races/ethnicities: Evidence from the Pregnancy Risk Assessment Monitoring Surveys. <i>Journal of Racial and Ethnic Health Disparities</i> , 10, 1721–1734. <a href="https://doi.org/10.1007/s40615-022-01356-w">https://doi.org/10.1007/s40615-022-01356-w</a><br><br><a href="#">Watch this webinar to learn more</a> |

| PILOT INVESTIGATOR                 | DATA SOURCE(S)   | POPULATION(S)  | EXAMPLE MEASURES  | PUBLICATION/REFERENCE  |
|------------------------------------|--|--|---|--|
| <b>Cassandra Nguyen (Nikolaus)</b> | <a href="#">National Longitudinal Study of Adolescent to Adult Health</a> (Wave 4; 2008-2009)  | Wave 4 cohort members who were 24–32 years old   | Risk of food insecurity, indicators of cardiometabolic health (body mass index, hemoglobin A1c, blood pressure), sociodemographic characteristics | Nikolaus, C. J., Zamora-Kapoor, A., Hebert, L. E., & Sinclair, K. (2022). Association of food security with cardiometabolic health during young adulthood: Cross-sectional comparison of American Indian adults with other racial/ethnic groups. <i>BMJ Open</i> , 12(6), e054162. <a href="https://doi.org/10.1136/bmjopen-2021-054162">https://doi.org/10.1136/bmjopen-2021-054162</a>                   |
| <b>Christine Hockett</b>           | <a href="#">SEARCH for Diabetes in Youth</a> (2002-2016)<br><br>US Census Data, 2010<br><br><a href="#">American Community Survey</a> (2010) | Youth aged 0-19 years with T2D and who were active users of tribally operated or IHS-operated regional health facilities | Economic stability, neighborhood & physical environment, education, health & healthcare system, community & social context                        | <a href="#">Watch this webinar to learn more</a><br><br><a href="#">Or review the webinar slides</a>   |
| <b>Sarah Stotz</b>                 | Data were collected in August–October 2018 through focus groups and interviews with AI/AN adults with T2D and additional stakeholders        | AI/AN adults with T2D, adult family members, community-based key participants, national content experts                  | Example interview guide question: ‘Tell me what it’s like to learn about diabetes and nutrition in your community’                                | Stotz, S., Brega, A. G., Henderson, J. N., Lockhart, S., & Moore, K. (2021). Food insecurity and associated challenges to healthy eating among American Indians and Alaska Natives with type 2 diabetes: Multiple stakeholder perspectives. <i>Journal of Aging and Health</i> , 33(7-8_suppl), 31s-39s. <a href="https://doi.org/10.1177/08982643211013232">https://doi.org/10.1177/08982643211013232</a> |

| PILOT INVESTIGATOR   | DATA SOURCE(S)  | POPULATION(S)  | EXAMPLE MEASURES   | PUBLICATION/REFERENCE   |
|--|---|--|--|---|
| <p><b>Cheryl Conway</b><br/>(with Amber Fyfe-Johnson, Vanessa Hiratsuka, Kimberly Huyser, Michelle Johnson-Jennings)</p> | <p>IHS Improving Health Care Delivery Data Project (“IHS Data Project”); FY 2013</p> <p>US Census Data, <a href="#">American Community Survey</a> (2010-2014)</p> <p><a href="#">USDA Food Environment Atlas</a></p> <p><a href="#">National Center for Health Statistics</a></p>       | <p>AI/AN adults aged ≥ 50 years who used IHS/tribal services in FY2013</p> | <p><a href="#">IHS Data Project</a><br/>BMI, demographics, health coverage, health care access</p> <p><a href="#">ACS/Food Environment Atlas</a><br/>SDOH indicators</p> <p><a href="#">NCHS</a><br/>Rural/urban</p> | <p>Goins, R. T., Conway, C., Reid, M., Jiang, L., Chang, J., Huyser, K. R., Brega, A. G., Steiner, J. F., Fyfe-Johnson, A. L., Johnson-Jennings, M., Hiratsuka, V., Manson, S. M., &amp; O’Connell, J. (2022). Social determinants of obesity in American Indian and Alaska Native peoples aged ≥ 50 years. <i>Public Health Nutrition</i>, 25(8), 1-30.<br/><a href="https://doi.org/10.1017/s1368980022000945">https://doi.org/10.1017/s1368980022000945</a></p>                  |
| <p><b>Amber Fyfe-Johnson</b><br/>(with Cheryl Conway, Vanessa Hiratsuka, Kimberly Huyser, Michelle Johnson-Jennings)</p> | <p>IHS Improving Health Care Delivery Data Project (“IHS Data Project”); FYs 2007–2013</p> <p>US Census Data, <a href="#">American Community Survey</a> (2010-2014)</p> <p><a href="#">USDA Food Environment Atlas</a></p> <p><a href="#">National Center for Health Statistics</a></p> | <p>AI/AN children 2–11 years of age, who used IHS from 2010 to 2014</p>    | <p><a href="#">IHS Data Project</a><br/>BMI, demographics</p> <p><a href="#">ACS/Food Environment Atlas</a><br/>SDOH indicators</p> <p><a href="#">NCHS</a><br/>Rural/urban</p>                                      | <p>Fyfe-Johnson, A. L., Reid, M. M., Jiang, L., Chang, J. J., Huyser, K. R., Hiratsuka, V. Y., Johnson-Jennings, M. D., Conway, C. M., Goins, T. R., Sinclair, K. A., Steiner, J. F., Brega, A. G., Manson, S. M., &amp; O’Connell, J. (2022). Social determinants of health and body mass index in American Indian/Alaska Native children. <i>Child Obesity</i>, 19(5), 341-352.<br/><a href="https://doi.org/10.1089/chi.2022.0012">https://doi.org/10.1089/chi.2022.0012</a></p> |

American Indian Alaska Native (AIAN) adolescents and obesity: the influence of social determinants of health, mental health, and substance use. <i>International Journal of Obesity</i>, 47(4), 297-305. <a href="https://doi.org/10.1038/s41366-022-01236-7">https://doi.org/10.1038/s41366-022-01236-7</a></p>                       |

## OTHER LARGE-SCALE DATA SETS

| DATA SOURCE(S)  | DESCRIPTION   | PUBLICATION/REFERENCE  | WEBSITE   |
|---|---|--|---|
| <b>American Community Survey (ACS)</b>                    | ACS is an annual demographics survey program conducted by the U.S. Census Bureau that asks about ancestry, US citizenship status, educational attainment, income, language proficiency, migration, disability, employment, and housing characteristics        | See the <a href="#">ACS website</a> for a list of publications and reports   | <a href="https://www.census.gov/programs-surveys/acs">https://www.census.gov/programs-surveys/acs</a>   |
| <b>Behavioral Risk Factor Surveillance System (BRFSS)</b> | This annual survey collects state data about U.S. residents regarding their health-related risk behaviors, chronic health conditions, and use of preventive services and collects data in all 50 states, the District of Columbia, and three U.S. territories | See the <a href="#">BRFSS website</a> for a list of publications and reports | <a href="https://www.cdc.gov/brfss/index.html">https://www.cdc.gov/brfss/index.html</a>   |
| <b>California Health Interview Survey (CHIS)</b>          | More than 20,000 California households — including adults, adolescents, and children — are interviewed each year  | See the <a href="#">CHIS website</a> for a list of publications              | <a href="https://healthpolicy.ucla.edu/our-work/california-health-interview-survey-chis/access-chis-data">https://healthpolicy.ucla.edu/our-work/california-health-interview-survey-chis/access-chis-data</a> |
| <b>Medical Expenditure Panel Survey (MEPS)</b>            | MEPS is a set of large-scale surveys of families and individuals, their medical providers, and employers across the US and is the most complete source of data on the cost and use of health care and health insurance coverage                               | See the <a href="#">MEPS website</a> for a list of publications              | <a href="https://meps.ahrq.gov/">https://meps.ahrq.gov/</a>   |
| <b>Medicare data/Medicaid data</b>                        | This site gives you direct access to public data released by the Centers for Medicare & Medicaid Services (CMS)   | N/A  | <a href="https://data.cms.gov/">https://data.cms.gov/</a>   |

| DATA SOURCE(S)  | DESCRIPTION   | PUBLICATION/REFERENCE   | WEBSITE   |
|---|---|---|---|
| <b>National Longitudinal Study of Adolescent to Adult Health (Add Health)</b> | Add Health is a longitudinal study of a nationally representative sample of over 20,000 adolescents who were in grades 7-12 during the 1994-95 school year, and have been followed for five waves to date, most recently in 2016-18 | See the <a href="#">Add Health website</a> for a list of publications                         | <a href="https://addhealth.cpc.unc.edu/">https://addhealth.cpc.unc.edu/</a>   |
| <b>Pregnancy Risk Assessment Monitoring System (PRAMS)</b>                    | PRAMS collects jurisdiction-specific, population-based data on maternal attitudes and experiences before, during, and shortly after pregnancy   | See the <a href="#">PRAMS website</a> for a list of publications                              | <a href="https://www.cdc.gov/prams/index.htm">https://www.cdc.gov/prams/index.htm</a>   |
| <b>SEARCH for Diabetes in Youth Study</b>                                     | National study of youth aged 0-19 years with a physician diagnosis of type 1 or type 2 diabetes at five centers in the USA between 2002 and 2018  | See the <a href="#">SEARCH for Diabetes in Youth Study website</a> for a list of publications | Anna Bellatorre, PhD ( <a href="mailto:Anna.Bellatorre@cuanschutz.edu">Anna.Bellatorre@cuanschutz.edu</a> )   |
| <b>United States Renal Data System</b>  | People with end-stage renal disease or chronic kidney disease   | See the <a href="#">USRDS website</a> for a list of publications                              | <a href="https://www.niddk.nih.gov/about-niddk/strategic-plans-reports/usrds">https://www.niddk.nih.gov/about-niddk/strategic-plans-reports/usrds</a> |

## DATABASES

| DATABASE                         | DESCRIPTION  | EXAMPLES  | WEBSITE   |
|----------------------------------|--|---|---|
| <b>Health Research Databases</b> | The Health Research Databases lists and describes many other databases that can be used for research. The website has a list of several public-use databases that can be used in research studies. Most of these resources are freely available online. Some will require a study proposal and/or data use agreement be submitted and evaluated. | The database provides the following for each data source: organization source, website, data description, vintage/release frequency, observational unit, collection methodology, where the data is available at, user guide/data dictionary, cost, proposal/application required for use, and if a DUA is required to use the data. | <a href="https://cu-anschutz-dos-corp.github.io/researchDatabases/">https://cu-anschutz-dos-corp.github.io/researchDatabases/</a> |
